stacker trucks

Performance, safety and stability as for the series of trucks in normal steel plus:

EGO
inox

OPTIONALS :

- Lift height with proportional pushbuttons
- Cold store application
- Special dimensions

EL inox

masts with total visibility

Manufactured entirely in stainless steel or anticorrosive material (including bearings on wheels and rollers on mast)

Chassis with rounded forks, to avoid deposits of residuals and to allow a good daily cleaning with soft water

Mast group in rolled laminated stainless steel and lifting cylinders , including chain , totally in stainless steel

Gearing group in stainless steel AISI INOX 304

Motors without brushes in AC technology protected IP 55 for high performance and minor maintenance interventions.

Central spring loaded drive wheel with adjustable load, for an always efficient adherence to the floor.

Pushbutton box in antiacid material.

ELT inox

versions with operator's platform
(upon request without lateral protections)
