PHE 1000

Battery and protected motor pump against splashes of water

Rapid lifting system with capacity up to 250kg (Quick lift, less action on the pump to reach maximum lift)

## Electric and manual

The best instrument to guarantee continuity in working environments

Capacity: 1.000 kg  
External fork widths: 540 mm;  
Fork lengths: 1.190 mm.  
Maximum lift height: 800 mm

### PRODUCTS WITH ADDED VALUE. INOX.

**Pallet truck, manual lift truck in stainless steel with work surface base adjustable in height; three working requirements satisfied in one single solution.**

*Destined to be used in conditions where cleanliness and hygiene are essential factors*

Entirely constructed with Stainless steel; pump, bearings and frame, to guarantee a long life span.

The single rod cylinder guarantees stability and notably reduces the risks of oil leaks. The electric version PhE has all its electro-hydraulic components protected against water sprays. The electric version is also equipped with a manual lifting function for use when battery is flat.
