PHM 1000

## Manual

The best instrument to guarantee continuity in working environments

Capacity: 1.000 kg  
External fork widths: 540 mm;  
Fork lengths: 1.190 mm.  
Maximum lift height: 800 mm

### A PRODUCT WITH ADDED VALUE. INOX.

Pallet truck, manual stacker in stainless steel with working surface adjustable in height, three functions resolved in one single solution.

destined to be used in conditions where cleanliness and hygiene are essential factors and where there are problems with corrosion

Entirely constructed in Inox stainless steel, pump, bearings and frame, for long duration in time.  
The single stage cylinder guarantees stability and notably reduces the risk of oil leaks. The electric version PHE has all its electro-hydraulic components protected against water sprays. The electric version is equipped with manual lifting function for use when the battery is flat.
